OBJECTIVE

Driven and versatile software engineer, passionate about contributing to impactful projects in a fast-paced software company. I am eager to apply my expertise in backend development, database management, and software design while gaining practical experience in crafting innovative solutions. I am committed to working collaboratively with a team to deliver exceptional software and continuously enhance my skills as a professional in the tech industry.

EDUCATION

Bachelor's of Science in Software Engineering

COMSATS UNIVERSITY ISLAMABAD, LAHORE

CAMPUS

Course work: Object-oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Machine Learning, Software Design and Architecture, Web Engineering, Software Quality Engineering, Software Project Management, Software Engineering Concepts, Software Requirement Engineering, Data-warehousing and Data mining, AI, Data Science, Information Security, Computer Vision, Human Computer Interaction, Software Testing.

Certifications: <https://tinyurl.com/bde3wa2s>

SKILLS

- | | | | |
|--------------------------------|---|-----------------------------------|-----------------------------------|
| • Fast Api | • Microsoft Azure (Email Service, Devops, ADF, Job container, blob storage) | • Apache Airflow | • React JS |
| • MongoDB | • SQL | • Desktop Application Development | • React Native |
| • Graph DataBase (Neo4j) | • Python (with Machine Learning and certifications) | • Java | • Node JS |
| • PowerBi | • Express JS | • Django | • Geospatial data (shapefiles) us |
| Machine Learning Skills | | | |
| • Decision Trees | • Naive Bayes | • Random Forest | • SVM |
| • PCA | • DBScan | • Object Detection | • Rule based classification |
| • KNN | • K means clustering | • Hierarchical Clustering | • F Trees |

Algorithms learned

- | | | | |
|-------------------------|---------------------------------|-------|-------|
| • Candidate Elimination | • Monte Carlo Tree search | • BFS | • DFS |
| • Find S algorithm | • List then eliminate algorithm | | |

PROJECTS

- | | | | |
|---|--|-----------------------------------|-----------------|
| • zoomautos.co.uk | • Online Matchmaking system (FYP) | • AI chatbot using Neo4j Database | • File Explorer |
| • Diamond Price Predictor | • Online Shopping system (Desktop Application) | • performX (application for dsm) | |

EXPERIENCE

DEVISNC

Associate Software Engineer

April 2025-present
